

Train station Rodange

At Rodange station, the renovation work launched by CFL is nearing completion, with the aim of making it a modern, welcoming station tailored to passengers' needs.

To find out about the many connections available from Rodange station (train and bus), please visit the [Mobilitet.lu](https://www.mobilitet.lu) website.

There are two ways of accessing the station, one via the rue de Luxembourg, which is useful for customers arriving by bus, and the other via the large covered car park with 1,526 parking spaces, including 20 for PRMs.

Access to the various platforms is possible via a footbridge, which is accessible either by lift or by wide stairs with clearly marked steps for the visually impaired. Every path, both on the platforms and on the footbridge, is equipped with a strip to help the visually impaired find their way. A sufficient number of legible pictograms have been added to the screens displaying train timetables, speaking in case of need, and ticket dispensers adapted to specific needs, making this station accessible to all.

In addition to the waiting rooms described below, the long platforms (200 metres) have 12 additional covered seats per platform,

11, route de Luxembourg
